	673.12%		2930.72%		
	CAGR 16%		CAGR 21%		

The above table evaluates our managerial performance versus SENSEX. We have used change in per share Book Value instead of change in our stock price because year-to-year market prices can be extraordinarily erratic. Even evaluations covering as long as a decade can be greatly distorted by foolishly high or low prices at the beginning or end of the measurement period. Thus ideal standard for measuring yearly progress is change in Renaissance's per-share book value.

Note: The SENSEX numbers are pre-tax whereas the Renaissance numbers are post-tax. Both these numbers are exclusive of dividend.

Along with US and European markets, we are currently exploring the domestic market opportunity. Apart from our core jewellery business, we have our own Home Retail Brand, 'House Full' with 31 Stores across India.

### General Economic and Industry trend:

Over the past few years, the Indian economy has witnessed sluggish growth with relative moderation in all three sectors: agriculture, industry and services. The economy is in need of a fillip to pull itself out of this slump and be redirected to a path of continued and sustained growth.

The Indian economy experienced a second successive year of weak performance with the GDP growing at 4.7% in 2013-14 compared with 4.5% in 2012-13.

A strong and stable government at center and its first budget that signifies the path as well as long term vision of things to come, has instilled hope.

The gems and jewellery sector has been playing a very important role in the Indian economy and contributes about 6-7% to the country's gross domestic product (GDP), apart from large scale employment generations and foreign exchange earnings (FEE). In FY 2013-14, the Indian gems and jewellery sector contributed US\$ 34,746.90 million to India's FEE with a decline of 11 per cent as compared to the last year figures.

The export of gold jewellery and gold medallions together for the period April 2013-14 stood at \$11045.92 million which shows a drop of 39.50 per cent. This was mainly due to the non-availability of the gold limiting the extent of trade for many of the Indian players.

The silver jewellery exports had a significant increase by 58.57 per cent with figures of \$1460 million.

A FICCI-Technopak report predicts that gems and jewellery exports will touch US\$ 58 billion by 2015. The report also estimates that the domestic market for gems and jewellery will reach US\$ 35-40 billion by 2015.

The domestic gems and jewellery industry had a market size of ₹ 251,000 crore (US\$ 41.61 billion) in 2013, with potential to touch ₹ 500,000-530,000 crore (US\$ 82.94-87.93 billion) by 2018, according to a joint report by FICCI – AT Kearney titled 'All that glitters is Gold: India Jewellery Review 2013'.

Key exporting destinations for gems and jewellery in FY 2013-14 were UAE – 35 per cent of exports valued at US\$ 12,195.34 million; Hong Kong – 28 per cent of exports valued at US\$ 9,790.45 million; and the US – 14 per cent of exports valued at US\$ 4,948.92 million.

The country's success in the gems and jewellery global market can be attributed to the following factors – highly skilled, low-cost labour; excellence in jeweler manufacturing and diamond polishing; and technologically advanced factories.

# Renaissance Jewellery Limited

The country is slowly starting to move towards branded jewellery and consumers are progressively accommodating modern retail formats. While this could impact traditional players, it also gives them the opportunity to upgrade to keep pace with evolving market trends. It is expected that traditional and modern players will co-exist in future.

In March, the RBI had allowed more banks, to import gold under the 80:20 scheme, a move seen as a precursor to easing restrictions on inward shipments of the metal.

# Notes to the Financial Statements

## for the year ended March 31, 2014

### 1. CORPORATE INFORMATION

Renaissance Jewellery Limited (“the Company”) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on two stock exchanges in India. The Company is engaged in the manufacture of diamond studded jewellery which are majorly exported to countries like USA, Hong Kong, etc.

### 2. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the Accounting Standards notified by Companies (Accounting Standards) Rules, 2006, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

### 2.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management’s best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in the future periods.

#### b) Tangible fixed assets

Fixed assets are stated at cost, net of accumulated depreciation. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### c) Depreciation/Amortization

Depreciation on fixed assets is calculated on a written down value basis using the rates prescribed in Schedule XIV to the Companies Act, 1956. The Company has used the following rates to provide depreciation on its fixed assets.

Nature of Assets	Rates (WDV)
Factory buildings	10%
Other buildings	5%
Plant and equipments	13.91%
Furniture and fixtures	18.1%
Vehicles	25.89%
Computers	40%
Office Equipment	13.91%
Leasehold Improvements	18.1% or the rate based on lease period, whichever is higher

## Notes to the Financial Statements for the year ended March 31, 2014

Further in respect of assets built on leasehold land or leasehold premises, if the life as per Schedule XIV is more than the balance period of lease as per lease term the asset shall be written off over the balance period of lease. Leasehold Land is amortized on a straight line basis over the period of lease i.e. 24 years. Fixed assets costing ₹ 5,000 or less are depreciated fully in the year of acquisition.

### d) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over the estimated useful economic life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

A summary of amortization policies applied to the Company's intangible assets is as below:

Computer Software	20%
-------------------	-----

### e) Impairment of tangible and intangible assets

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

### f) Leases

#### Company is the lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items, are classified as operating leases. Operating lease payments are recognized as an expense in the Profit and Loss account on a straight-line basis over the lease term.

### g) Investments

Investments that are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

### h) Inventories

Cut & Polished Diamonds	Polished diamonds are valued at lower of cost or net realizable value. Cost is ascertained on lot-wise weighted average basis.
Raw materials	Lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on specific identification basis. Cost of raw materials comprises of cost of purchase and other cost in bringing the inventory to their present location and condition excluding refundable taxes and duties.

## Notes to the Financial Statements for the year ended March 31, 2014

Work-in-progress and Finished goods	Lower of cost and net realizable value. Cost includes direct materials, labor and proportionately all other cost related to converting them into finished goods. Cost is determined on specific identification basis.
Stores and spares	Stores and spares are valued at lower of cost or net realizable value. The cost is computed on moving weighted average.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

### i) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

#### Sale of Goods

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer. The Company collects sales taxes and value added taxes (VAT) on behalf of the government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from revenue.

#### Interest

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable. Interest income is included under the head "other income" in the statement of profit and loss.

#### Dividends

Revenue is recognized when the shareholders' right to receive payment is established by the reporting date.

### j) Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

### k) Foreign currency translation

Foreign currency transactions and balances

#### a) Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

#### b) Conversion

Foreign currency monetary items are reported using the closing rate.

#### c) Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting such monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

#### d) Forward Contracts

The premium or discount arising at the inception of forward exchange contracts is amortized as expense or income over the life of the contract. Exchange differences on such contracts are recognized in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognized as income or as expense for the year.

## Notes to the Financial Statements for the year ended March 31, 2014

### l) Retirement and other employee benefits

A retirement benefit in the form of Provident Fund is a defined contribution scheme and the contributions are charged to the Profit and Loss Account of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.

Gratuity liability is a defined benefit obligation. The costs of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end using the projected unit credit method.

Actuarial gains and losses for defined benefit plans are recognized in full in the period in which they occur in the statement of profit and loss.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

### m) Income taxes

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the Company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the Company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the Company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

### n) Segment Reporting Policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

## Notes to the Financial Statements for the year ended March 31, 2014

### o) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### p) Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### q) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

### r) Cash and Cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

### s) Measurement of EBITDA

As permitted by the *Guidance Note on the Revised Schedule VI to the Companies Act, 1956*, the Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit/(loss) from continuing operations. In its measurement, the Company does not include depreciation and amortization expense, finance costs and tax expense.

### 23. HEDGE

The Company has changed its accounting policy with regard to recognition of exchange differences arising on translation of Forward contract and Exchange Traded Currency Futures Contracts by following an appropriate hedge accounting policy and applying the principles set out in AS-30 "Financial Instrument: Recognition and Measurement". The Company has w.e.f. April 01, 2013 designated Forward contract and Exchange Traded Currency Futures Contracts as hedge instrument to hedge its foreign currency risks of highly probable forecast transaction (of revenue streams) to be accounted as cash flow hedge. During the current year ended March 31, 2014, the net exchange difference gain on Forward contract and Exchange Traded Currency Futures Contracts amounting to ₹ 1,414.47 Lacs has been recognized in Hedging Reserve Account. Had this accounting treatment been not adopted by the Company, the profit (net of tax) on account of exchange difference gain for the current year would have been higher by ₹ 1,139.17 Lacs and consequently the reserves would have been lower by ₹ 275.30 Lacs.

## Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the Accounting principles generally accepted in India including Accounting Standards notified under the Companies Act, 1956 of India (the "Act") read with the General Circular No. 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Group's preparation and presentation of the consolidated financial statements

that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of the reports of the other auditors on the financial statements/consolidated financial statements of the subsidiaries as noted below, the consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date; and
- in the case of the Consolidated Cash Flow Statement, of cash flows of the Group for the year ended on that date.

## Other Matters

We did not audit the financial statements of certain subsidiaries, whose financial statements reflect total assets of ₹ 5,183.19 lacs as at March 31, 2014, the total revenue of ₹ 5,619.06 lacs and cash inflows amounting to ₹ 374 lacs for the year ended on that date. The financial statements of these subsidiaries have been prepared in accordance with accounting policies generally accepted in their respective countries and have been audited by other auditors who have submitted their audit opinions prepared under generally accepted auditing standards of their respective countries. The Management of the Company has converted these audited financial statements of the Company's subsidiaries to accounting principles generally accepted in India, for the purpose of preparation of the Company's consolidated financial statements under accounting principles generally accepted in India. Our opinion, thus, insofar it relates to amount included in respect of these subsidiaries, is

based solely on the reports of other auditors under the aforementioned GAAPs in respective countries and the aforesaid conversion undertaken by the management examined by us on a test basis.

We have relied on the reviewed/management certified financial statements of one of the subsidiary and associate whose financial statements reflect total assets of ₹ 33,749.41 lacs as at March 31, 2014, the total revenue of ₹ 58,337.94 lacs and cash inflows amounting to ₹ 1,303.50 lacs for the year ended on that date. These financial statements have been certified and approved by the Board of Directors of the said subsidiary and our report in so far as it relates to the amounts included in respect of the said subsidiary is based solely on such reviewed/approved financial statements.

We draw attention to Note No. 30 to the financial statements in respect to the litigation in relation to service tax payable on lease rent of immovable properties amounting to ₹ 184.13 lacs for which no provision has been made in the books as the matter is currently sub

judice and pending final decision by the Honourable Supreme Court of India. Pending final outcome of the said litigation, liability, if any, which may arise on the Company is presently not ascertainable and accordingly no provision has been considered necessary by the management in these financial statements.

Our opinion is not qualified in respect of other matters.

### Other Accounting Policies

#### (a) Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in the future periods.

#### (b) Tangible fixed assets

Fixed assets are stated at cost, net of accumulated depreciation. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from de recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

#### (c) Depreciation/Amortization

Depreciation is provided based on the estimated useful life of the asset which has been determined by the management which coincides with those prescribed under the Schedule XIV to the Companies Act 1956.

## Consolidated Notes to the Financial Statements for the year ended March 31, 2014

**(e) Impairment of tangible and intangible assets**

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

**(f) Leases**

**Company is the lessee**

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Profit and Loss account on a straight-line basis over the lease term.

**(g) Investments**

Investments that are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

**(h) Inventories**

Cut & Polished Diamonds	Polished diamonds are valued at lower of cost or net realizable value. Cost is ascertained on lot-wise weighted average basis.

### (m) Income taxes

#### Parent Company/Indian Subsidiaries

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

In the situations where the company is entitled to a tax holiday under the Income-tax Act, 1961 enacted in India or tax laws prevailing in the respective tax jurisdictions where it operates, no deferred tax (asset or liability) is recognized in respect of timing differences which reverse during the tax holiday period, to the extent the company's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognized in the year in which the timing differences originate. However, the company restricts recognition of deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax asset to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

#### Renaissance Jewelry New York Inc.

Income tax and deferred tax is recognized based on the tax laws of USA.

The company provides for income tax based on differences between the financial statement and tax bases of assets and liabilities at the enacted rates in effect in the year in which the differences are expected to reverse.

Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

For the tax purpose, Adrienne is treated as partnership, whereby income is taxed directly to the members. Thus, no provision for federal and state income tax has been made by Adrienne, since such taxes are the responsibilities of the members.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

Renaissance Jewelry New York Inc.

## 21. HEDGE

The Company has changed its accounting policy with regard to recognition of exchange differences arising on translation of Forward contract and Exchange Traded Currency Futures Contracts by following an appropriate hedge accounting policy and applying the principles set out in AS-30 "Financial Instrument: Recognition and Measurement". The Company has w.e.f. from April 01, 2013 designated Forward contract and Exchange Traded Currency Futures Contracts as hedge instrument to hedge its foreign currency risks of highly probable forecast transaction (of revenue streams) to be accounted as cash flow hedge. During the current year ended March 31, 2014, the net exchange difference gain on Forward contract and Exchange Traded Currency Futures Contracts amounting to ₹ 1,414.47 Lacs has been recognized in Hedging Reserve Account. Had this accounting treatment been not adopted by the Company, the profit (net of tax) on account of exchange difference gain for the current year would have been higher by ₹ 1,139.17 Lacs and consequently the reserves would have been lower by ₹ 275.30 Lacs.

## 22. HOUSEFULL INTERNATIONAL LIMITED

The company sells its goods at various retail outlets including e-commerce. Upon customer's selection it offers sale and delivery thereof. On acceptance of offer for sale, the price is invoiced and the sale consideration is fully collected. The relevant goods are marked for that customer. The delivery of the sold product is effected or deferred at the customer's request. The company recognises such invoices (where amount is fully collected) as sales, though the delivery is deferred at the customer's request, in terms of legal advice and applicable Accounting Standard that the sale is complete when goods are appropriated and identified upon payment.
